Our Machine Translation engines are fed by the specific language of the financial industry

Specialised engines by document type

- Annual Report / IFRS
- Asset Management Marketing
- Corporate Actions
- Equity Research
- Fund Factsheet
- Finance
- Macro Research
- Prospectus / KIIDs
- Regulatory

English | French | German | Italian |
Spanish | Chinese | Japanese |
Dutch | Portuguese

Tailor made engines developed for you

Developed and trained in order to master your specific vocabulary with successive re-training.

- Can be dedicated to a specific team activity
- All languages
- Original document format preserved

We designed Verto to match all your translation needs.

Post Editing Artificial Intelligence + Human Intelligence

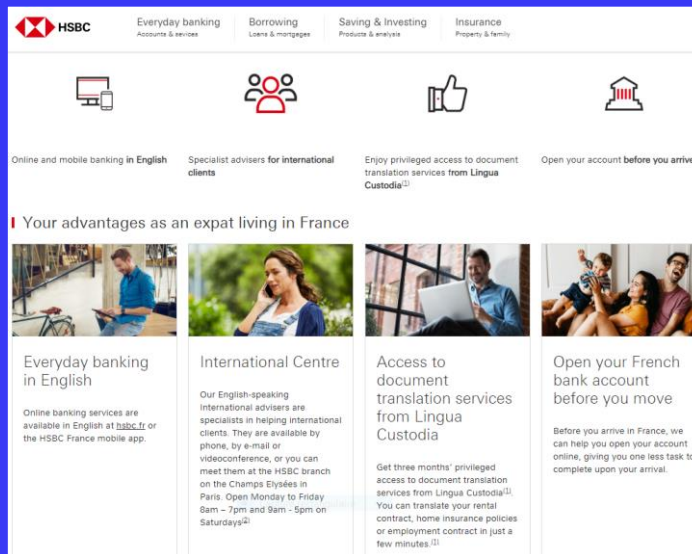

Your document is translated by one of our specialised engines.

It is reviewed, updated and validated in the target language by a native financial professional translator.

The completed document is sent back to you in its original format.
