

We Simplify Fund Distribution

Reconnecting investors and asset managers by helping intermediaries to digitize fund distribution operations through a market infrastructure based on distributed technologies.

Helping the Fund Industry to Boost Value

We shift the technological paradigm in the industry using a decentralized network and APIs to deliver:

- ▶ Faster, smoother, frictionless investor onboarding
- ▶ Improved process speeds for fund distribution
- ▶ Increased transparency and reduced costs

Enhancing Interoperability within the Ecosystem

The platform enables a co-operative ecosystem between all actors in the fund distribution chain

- ▶ Record keeping and register management
- ▶ Transaction processing
- ▶ Cash settlement and reconciliation
- ▶ Cloud services and API interoperability
- ▶ Real time reporting and analytics
